## FOREWORD

This directory is published primarily for use by Service Officers of the Illinois Veterans Commission. It is intended as a working tool that will aid in advising veterans of available educational opportunities, principally in private schools offering training in trade, vocational and special fields.

Facilities listed in this directory are approved by the Superintendent of Public Instruction and accepted by the Veterans Administration to offer training under the provisions of Public Law 346 as amended. It is emphasized that "approval" and "acceptance" as used in the preceding sentence is not to be interpreted as a recommendation of any particular school. The list of facilities is accurate and authentic as of the date of publication. The reader should be warned however, that occasionally facilities are dropped from the approved list for various reasons and likewise new facilities may be added from time to time. It should further be pointed out that we have listed herein only those courses approved under the G. I. Bill and oftentimes one or more courses may be removed from a school's approved list and likewise courses may be added to the approved offerings in a particular facility. It follows then that this publication should be used only as a general guide and not to be interpreted as guaranteeing the situation indicated at the time of publication.

Users of the directory are invited to inform this office of any errors noted. Furthermore, suggestions for improvement of the directory are welcomed and will be given careful consideration prior to publishing a revised edition.
